Shekinah Chronicles

By: Nathan D. Pietsch

CARPAL TUNNEL HEALED

Dawn and I have been ministering to numerous people in the French Quarter in New Orleans. One of those ministry encounters was with Roger and Gretchen, an older couple in their sixties. Gretchen was sitting in a wheelchair in a cast due to a broken foot. Dawn asked her if we could pray for her foot. She was receptive and permitted us to pray.

While we were praying, I got a word of knowledge pertaining to numbness in her left hand. I asked her if this made sense to her.

Gretchen replied, "Ya, it used to be a lot worse. I had carpal tunnel surgery done on my left hand." She showed us the scar. "However, I still have numbness in my hand."

Gretchen then showed us that she was unable to close her hand all the way. Her pinky finger and ring finger stopped about an inch away from touching her palm.

We began to pray for her hand, and we could see some slight improvement. We then prayed again and she was able to close her hand the entire way.

Both Gretchen and Roger could not deny there was a significant change. Gretchen also said that she could not hold onto her pills with her left hand. They would fall to the ground because she was unable to close her hand. Jesus healed her hand and restored it.
