Shekinah Chronicles

By: Nathan D. Pietsch

GOD HEALS INSIDE & OUT

Dawn and I were asked to preach at an open air tent revival meeting. The message was simple: We need to know who God is, not simply know about Him. After the Bible was preached, we gave an alter call to anybody who desired to receive personal prayer. We prayed for a woman named, "Erika."

Erika had a major problem with her left shoulder. She was in a horrible car accident years ago which left her mother and fiancé dead. Her left arm was damaged so bad they had to put a titanium rod and screws to hold it in place. She was unable to lift her arm higher than shoulder level.

The Lord showed up in a beautiful way and touched her shoulder. By the time we were done praying, she was able to lift her arm completely overhead, something she had been unable to do for years. There were many people who witnessed her miracle healing.

The Lord also revealed to us Erika had emotional trauma associated with the car accident. She was the passenger in the car, but blamed herself for the wreck.

We led Erika through inner healing. During the process she had a vision of Jesus. She saw Jesus heal the internal soul wounds and take away the shame. She wept profusely. In the end, the trauma she was plagued by had been healed. Thank you, Jesus!
