ALL SUFFICIENT GOD CHURCH

REVIVAL HAS BEGUN IN
SWITZERLAND

Switzerland.

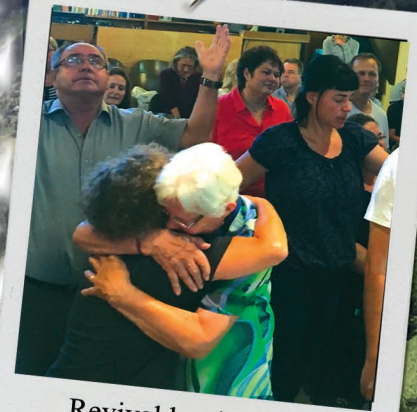

Dawn and I were invited by the Swiss people to help usher in major regional transformation. In addition to bringing reformation, we have been commissioned to train, equip, and activate the believers so they can steward the revival after we leave Europe.

However, this desire for regional transformation is contested by a religious spirit. Like so many people in numerous countries, they are accustomed to religious rituals pre-established in the church. Dawn and I are in the process of bringing revival while uprooting the religious spirit and mindset. This process began by me preaching at a three day/four session conference. The Lord gave me a theme for the seminar, in which I entitled it, The Revive Us Series.

To help keep the fire of revival burning, Dawn and I will be leading a weekly Prophetic Prayer and Intercession night, along with many workshops. The workshops are designed to help launch people into their true God-given destinies. In addition to these evenings, we have been completely booked with personal prayer sessions during the day. We have had over 60 people sign up to receive personal one-on-one ministry to help unlock purpose and remove oppression. We have been seeing radical fruit already from our ministry times.

Please keep us in prayer as we continue to serve the people in the Swiss region.
